## Emergency Succession

Adopted: Jan 2007  
Modified: Nov 2008

In order to ensure consistent service in the event of the sudden loss or extended unavailability of the Principal, the Principal shall not fail to have a written emergency succession plan in place.

This plan must ensure that no fewer than two other staff or faculty members are generally familiar with the role and work of the Principal.

The plan must make provision for immediate communication with the Board in the event that it is put into effect.
